

# BRN Case Management CE Package - Draft / Pending BRN CEP Approval

## Integrated Case Management Capstone and Final Assessment

**Provider (from master packet):** CI Institute of Nursing, Inc. — 419 E. Hamilton Ave., Campbell, CA 95008 — 650-449-6706 — [humanresources@ci-ion.com](mailto:humanresources@ci-ion.com) — <https://www.ci-ion.com>

"Pending California Board of Registered Nursing Continuing Education Provider approval. Do not advertise, issue certificates, or represent this course as approved until a BRN CEP number has been issued."

*This document follows a CCCCCO-style documentation organization only (structured overview, objectives, content outline, activities, facilitator notes, assessment mapping, compliance support). No CCCCCO content is copied; all content is original and customized for California BRN Case Management CE.*

### Module At a Glance

| Field                     | Value                                                                                                               |
|---------------------------|---------------------------------------------------------------------------------------------------------------------|
| Module ID                 | CM-M10                                                                                                              |
| Module title              | Integrated Case Management Capstone and Final Assessment                                                            |
| Parent course             | RN Case Management in Home Health: Care Coordination, Documentation, Patient Advocacy, and Safe Transitions of Care |
| Contact hours             | 3 (draft design math)                                                                                               |
| Estimated learner minutes | 175 (>=150 floor)                                                                                                   |
| Direct/indirect linkage   | Direct + indirect patient/client care                                                                               |
| Approval status           | Draft / Pending BRN CEP Approval                                                                                    |

### BRN Relevance Rationale

Synthesizes nurse-led care management across the full patient journey and verifies competency.

### Module Description

Integrates assessment, coordination, documentation, advocacy, transitions, UR, and QA into one fictional end-to-end case, then verifies mastery via a cumulative final examination.

### Measurable Learning Objectives

By the end of this module the learner will be able to:

- 1 Integrate assessment, coordination, documentation, advocacy, transitions, and QA into one case.
- 2 Produce an audit-ready, de-identified case-management documentation package.
- 3 Demonstrate >=80% mastery on a cumulative final assessment.
- 4 Reflect on implicit-bias and ethical considerations in the integrated case.

### Required Readings / Learning Content Sections

- Briefing 10.1 - Capstone scenario and rubric walkthrough.
- Week session 10.2 - Building the integrated case package.
- Self-review 10.3 - Rubric self-check.
- Final exam 10.4 - Cumulative assessment (bank draw).

## Detailed Lesson Outline

| Lesson ID | Lesson                                 | Est. minutes |
|-----------|----------------------------------------|--------------|
| CM-M10-L1 | Capstone briefing & rubric walkthrough | 30           |
| CM-M10-L2 | Building the integrated case package   | 60           |
| CM-M10-L3 | Self-review against rubric             | 25           |
| CM-M10-FE | Final cumulative assessment            | 60           |

Total estimated instructional minutes: **175** (meets the  $\geq 150$ -minute / 3-contact-hour floor).

## Key Terms

| Term                  | Definition                                                            |
|-----------------------|-----------------------------------------------------------------------|
| Capstone              | A culminating, integrative performance task demonstrating competence. |
| Rubric                | A scoring guide defining criteria and performance levels.             |
| Cumulative assessment | A summative exam covering the entire course.                          |
| Integration           | Combining skills from all modules into coherent practice.             |
| Internal answer key   | An admin/faculty-only key, never shown to learners.                   |

## Fictional / De-identified Case Scenario

All clinical content is fictional and de-identified. No PHI. A fictional, de-identified high-risk home-health client is followed from intake through a safe transition; the learner produces the full documentation package.

## Learner Activities

- Review the capstone briefing and rubric.
- Assemble the integrated case package (nine artifacts).
- Complete the rubric self-check.
- Submit the cumulative final exam ( $\geq 80\%$  to pass).

## Documentation / Decision-Making Exercise

Submit the Capstone Documentation Package: intake/assessment, care plan, coordination map + SBAR, audit-ready chart note, consent/advocacy + ethics reflection, discharge/transition plan with teach-back, medical-necessity rationale, incident/escalation note, and risk-stratification + monitoring plan - all fictional and de-identified, with a no-PHI attestation.

## Knowledge Check Blueprint

Capstone rubric self-check; the cumulative final exam (40-50 items, ~4-5 per module, bank draw, shuffled, time-limited, max 3 attempts, no full key) is the summative assessment.  $\geq 80\%$  to pass.

## Assessment Items (Learner-Facing Stems)

**FINAL-SCN1 (Scenario).** Given the fictional end-to-end case, select the action sequence that best protects a safe transition.

- Reconcile meds -> confirm follow-up -> teach-back -> document
- Discharge first -> reconcile later

- bullet Do not skip teach-back if rushed
- bullet Do not defer all follow-up to the family

**FINAL-Q2 (MCQ).** Across the case, which is always required before issuing a certificate of completion?

- bullet All blank certificate on file
- bullet All meeting all completion criteria + final  $\geq 80\%$
- bullet All real CEP number regardless of approval
- bullet All family sign-off

**FINAL-BANK (Bank (40-50 items)).** Cumulative bank: ~4-5 items per module, randomized draw across all 10 modules.

- bullet Mixed MCQ / multi-select / true-false / scenario

### ***LMS Completion Criteria***

- bullet Capstone package submitted and meets the rubric minimum on every criterion.
- bullet Cumulative final exam passed at  $\geq 80\%$ .
- bullet Course evaluation submitted (course-level gate).

### ***Evidence Generated by Learner Completion***

- bullet Activity-completion timestamps (time-on-task evidence).
- bullet Knowledge-check score and attempt log.
- bullet Submitted exercise artifact (retained  $\geq 4$  years; no PHI).
- bullet Capstone submission + rubric scoring + no-PHI attestation.
- bullet Final-exam attempt record + item analytics.

### ***Moodle Activity Recommendations***

- bullet Briefing (briefing)
- bullet Assignment (capstone, rubric-graded)
- bullet Quiz (final, gated  $\geq 80\%$ )
- bullet Certificate (gated)

### ***Accessibility Considerations***

- bullet Captions + transcripts for any media; semantic headings; alt text on diagrams.
- bullet Sufficient color contrast; no color-only meaning; keyboard-navigable activities.
- bullet Accessible downloadable templates (tagged PDF + DOCX); extended-time accommodation supported.
- bullet Target WCAG 2.1 AA on the built course.

### ***PHI / Privacy Guardrails***

- bullet All cases fictional and de-identified; no real patient/resident/family/facility data.

- Capstone instructions forbid real cases; automated no-PHI reminder + manual PHI review before scoring.
- Submission reminders and (for capstone) attestation + manual PHI review.

### SME Review Flags

- [SME REVIEW REQUIRED]] Capstone rubric and final-exam items require SME authoring and sign-off for validity/fairness.

### Compliance Review Flags

- [COMPLIANCE REVIEW]] Capstone instructions forbid real cases; automated no-PHI reminder + manual PHI review before scoring.

### Internal Answer Key Appendix (ADMIN / FACULTY ONLY - DO NOT SHOW LEARNERS)

| Item ID    | Type               | Correct answer                     | Rationale                                                                                       | Remediation                                                                    |
|------------|--------------------|------------------------------------|-------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|
| FINAL-SCN1 | Scenario           | A                                  | Reconcile, confirm follow-up, verify understanding, then document - integrates M03/M04/M06/M08. | Route to the weakest objective area; require re-do before retry.               |
| FINAL-Q2   | MCQ                | B                                  | Certificates issue only after completion criteria + passing the final; no blank certificates.   | Review the certificate-gate logic.                                             |
| FINAL-BANK | Bank (40-50 items) | Per SME-validated key (admin-only) | SME-authored rationales per item; not shown to learners.                                        | Remediation routing between attempts; lock after 3 attempts -> faculty review. |

### Debrief / Remediation Guidance

Faculty debrief uses the rubric to give criterion-level feedback (no answer key). After a failed final, route to remediation and require a short reflection/re-do before the next attempt; lock after three attempts for faculty/SME review.

### Application-Packet Defensibility Notes

Demonstrates integrated nurse-led care management and verifies competency, supporting the course's overall BRN relevance and rigor.

**Program-structure note:** This module is part of the 30-contact-hour, 10-module RN case management program (10 modules x 3 contact hours; 50 instructional minutes = 1 contact hour; minimum 1,500 instructional minutes, 1,680 design minutes). The official BRN contact-hour map and transfer worksheet are aligned to this 30-contact-hour structure. Any earlier 4-contact-hour representative course is superseded and is not part of the current BRN CEP signer-review package. **[[SME REVIEW REQUIRED BEFORE SUBMISSION]]**

*Do not advertise, issue certificates, or represent this course as BRN-approved until the official BRN CEP approval and provider number are issued.*
