Draft / Pending Approval

## BRN CEP Missing or Pending Submission Items

Open item control sheet

| Document      | Operating context                                                                                                        |
|---------------|--------------------------------------------------------------------------------------------------------------------------|
| Packet status | Draft / Pending Approval                                                                                                 |
| Use           | Execution copy for signatures, submissions, Moodle handoff planning, catalog safe-language updates, and survey readiness |
| Boundary      | Official forms remain standalone and unbranded; CI-created PDFs are wrapper, index, course, and handoff documents        |
| Lane          | BRN / CEP Care Manager                                                                                                   |
| Agency status | Draft / Pending BRN CEP Approval                                                                                         |

**Approval boundary: This packet uses Draft / Pending Approval language only. It does not claim CDPH, CDSS/ACS, BRN, or other government approval. Certificates remain disabled until agency approval metadata and completion evidence gates are satisfied.**

## Lane Readiness Summary

| Control             | Required condition                                                          |
|---------------------|-----------------------------------------------------------------------------|
| Structure           | 30 contact hours; 10 modules x 3 contact hours                              |
| Source boundary     | Contact hours are primary language                                          |
| Stale content guard | No outdated BRN hour wording; no BRN approval claim before issued metadata  |
| Approval status     | Draft / Pending BRN CEP Approval until issued metadata is received          |
| Moodle hold         | Moodle development remains blocked until Vanessa/SME approval is documented |

## Submission Operating Sequence

- Complete packet intake
- Review lane-specific application submission folder
- Confirm official forms are ready for signature
- Route signatures and collect dates/initials
- Confirm payment/check authority
- Route course materials to Vanessa/SME
- Resolve missing or pending items
- Submit through the required agency channel
- Save proof of submission and update tracker

## Official Form Boundary

**Unbranded forms: Official government forms are kept as standalone unbranded PDFs. This branded document is a CI-created wrapper/index and does not visually alter official form pages.**

## Deficiency and Approval Metadata Handling

- Save any deficiency notice
- Correct only the requested item
- Preserve original and corrected versions
- Submit response through the required channel
- When approval metadata is received, record provider number, course number, approval date, expiration date, approved hours/contact hours, course title, certificate wording, and record-retention conditions

## Yadvir Operating Order Summary

- Tracker is the source of truth; update it and continue to the next allowed step without waiting for TJ unless a true blocker appears.
- Moodle development may not start until Vanessa Valerio, RN or another approved SME reviews and approves the course materials.
- Internal SME approval does not replace CDPH, CDSS/ACS, or BRN approval.
- No public approval claim, enrollment for approved credit, CE certificate release, or approved CE wording may be used until applicable agency approval and metadata are received.
- Certificates remain disabled until agency approval metadata and completion evidence gates are satisfied.
- Official government forms and CCCCO/NATP source pages remain unbranded and unaltered.
