

Post-SME Moodle Build Handoff Read Me

Aldrin/Dagny planning-only and post-approval implementation rules

Prepared	June 09, 2026
Status	Draft / Pending Agency Approval
Folder	Clean Google Drive end-user view

LMS development may not start until Vanessa Valerio, RN or another approved SME has reviewed and approved the course materials. Internal SME approval is required before Aldrin/Dagny begin Moodle course-shell build, content import, quiz import, learner-access configuration, certificate setup, or production implementation. SME approval does not replace agency approval.

Post-SME Handoff Rule

Moodle development may not start until Vanessa Valerio, RN or another approved SME has reviewed and approved the course materials for educational, clinical, and compliance accuracy.

Aldrin and Dagny may review requirements for planning only before SME approval. They must not begin course-shell build, content import, learner access setup, assessment import, certificate configuration, or production LMS development until SME approval is documented.

What To Provide After SME Approval

After Vanessa/SME approval, provide Aldrin and Dagny the Moodle requirements PDF, raw course-content PDFs, workbooks, activity maps, question-bank spreadsheets, completion rules, certificate gate rules, and implementation tracker.

Approval by Vanessa/SME is internal educational/clinical approval only. It does not replace CDPH, CDSS/ACS, or BRN approval.

What Remains Disabled

No learner-facing approval claim, advertising claim, enrollment for credit, or certificate issuance may occur until the applicable agency approval and issued metadata are received.
