

CI Institute of Nursing

CNA 24-Hour LMS Course Package

Consolidated LMS implementation package | Draft / Pending Approval

Field	Value
Course total	24 online CE hours
LMS structure	U01-U12
Seat time	50-minute minimum per CE hour
Assessments	Year 1 and Year 2 gates

LMS sequence

- Learner identity and attestation gate before course access.
- Units U01-U06 followed by Year 1 assessment.
- Units U07-U12 followed by Year 2 assessment.
- Completion requires documented seat time, assessments, attestation, and post-approval certificate gate.

Reviewer access controls

- Regulator reviewer access must remain valid through review and audit.
- User ID, password, platform URL, and support contact are final execution verification items.
- Course does not issue certificates until approval is received.

Course package map

Component	Included content
Catalog	12-unit course list and source module mapping
Syllabus	Unit objectives and online CE scope
Recordkeeping	Enrollment, seat time, assessments, attestation, completion record
Certificate gate	Blocked until approval and all learner controls are complete

Final Reviewer Controls

This consolidated course-material PDF is included separately from the complete signer-review binder so signer and reviewer users can locate course content quickly in Google Drive.

- Status: Draft / Pending Approval.
- Do not issue certificates, advertise approval, or claim approved provider/course numbers until regulator approval is received.
- Use this branded course PDF for end-user review; do not substitute raw source folders, build scripts, prompt files, old one-page fragments, or superseded placeholders.
- Official government forms remain in the lane's signer-review folder and are intentionally unbranded.

Review item	Expected result
Branding	CI Institute of Nursing logo and template styling present
Regulatory posture	Draft / Pending Approval stated clearly
Course consistency	Matches lane binder and final checklist
Submission caution	No certificate, advertising, or approval claim until regulator approval
