

# CALIFORNIA MOODLE BUILD HANDOFF

## POST-SME BUILD READINESS

IMPLEMENTATION MAY START AFTER VANESSA COURSE-MATERIAL APPROVAL

Compiled Course Materials | Moodle Requirements | Survey-Ready Build Support

CI Institute of Nursing, Inc.

STATUS: VANESSA COURSE-MATERIAL APPROVAL REQUIRED

Ready for implementation planning and build handoff.

# MOODLE BUILD HANDOFF

Moodle implementation may begin after Vanessa Valerio, RN approves the course materials for the applicable lane. This is the implementation-start gate for Aldrin and Dagny.

Use the compiled course-material packets, Moodle requirements PDF, build workbooks, activity maps, question-bank spreadsheets, completion rules, certificate-gate rules, and implementation tracker. LMS raw course-content PDFs are intentionally excluded from this pass.

| ITEM                             | BUILD USE                                                                                 |
|----------------------------------|-------------------------------------------------------------------------------------------|
| Compiled course-material packets | Controlling learner-facing content for Moodle shell build.                                |
| Moodle requirements PDF          | Implementation controls, completion gates, evidence, and survey-ready build requirements. |
| Workbooks and activity maps      | Course setup, question-bank import, interaction mapping, and validation support.          |
| Vanessa course-material approval | Required before implementation work begins.                                               |
