Instructor assignment by segment

TBD - instructor documentation pending confirmation, CV/license verification, and owner approval.

Records maintained and address

Course outline, schedule, roster, completion documentation, evaluations, post-test results, instructor qualification documentation, and reviewer materials at 419 E Hamilton Ave, Campbell, CA 95008

LMS reviewer access instructions

TBD - authorized LMS reviewer/access holder pending confirmation.

Certificate completion rule

No certificate until CDSS approval, full attendance, participation

verification, passing post-test, and issued vendor/course numbers.

Course Description

This course expands dementia CE coverage by focusing on environmental safety, restricted access considerations, dangerous-item controls, staff monitoring, activity adaptation, care-plan updates, and incident documentation.

Measurable Learning Objectives

Identify environmental and supervision controls relevant to residents living with dementia.

Evaluate dementia-care safety risks involving egress, dangerous items, nutrition, hydration, and activities.

Document safety observations, interventions, family communication, and service-plan updates accurately.

Recognize when a change in condition requires reassessment, care coordination, or leadership escalation.

Hour-by-Hour Outline

Segment

Content

Instructor assignment

Hour 1

Dementia-related safety risks, environmental cues, egress awareness, and dangerous-item controls.

[PENDING CONFIRMATION]

Hour 2

Activities, nutrition, hydration, sleep, wandering risk, and staffing communication.

[PENDING CONFIRMATION]

Hour 3

Observation, charting, care-plan updates, family communication, and reportable-event awareness.

[PENDING CONFIRMATION]

Hour 4

Scenario review: environmental controls, staff direction, documentation, and resident

dignity.

[PENDING CONFIRMATION]

Teaching Methods

Live lecture with visual slides and participant-facing handouts.

Case scenarios and guided discussion using RCFE operations examples.

Polls, chat prompts, verbal check-ins, and knowledge checks during the live-stream.

Post-test administered through the LMS or controlled form after attendance is verified.

Participant Evaluation Method

Participants complete a course and instructor evaluation covering objective clarity, relevance to RCFE administrator duties, instructor effectiveness, materials, technology, timing, and suggested improvements. Evaluation records are retained with the course file.

Participant Assessment and Post-Test Method

Participants must attend the full approved duration, complete the active participation checks, and pass the post-test with a minimum score of 80 percent. Remediation may be provided once; the certificate is withheld until attendance, participation, and assessment requirements are satisfied.

Post-Test Questions and Answer Key

No.

Question

Answer key

1

**What type of control reduces
dementia-related safety risk without
undermining dignity?**

**A person-centered environmental or
supervision control tailored to the resident's
assessed need.**

2

When should a dementia care plan be

updated?

When observation, condition change, incident, or service need indicates the current plan is no longer sufficient.

3

Why are hydration and nutrition part of dementia safety planning?

Changes in cognition can affect intake, cueing needs, and risk of decline.

4

What must staff avoid when describing dementia-related behavior?

Judgmental labels that do not document objective observations and interventions.

5

How many dementia hours do RCFE administrators generally need within a 40-hour renewal cycle?

At least 8 hours.

Active Participation Verification Method

Live-stream attendance is verified through platform log-in records, attendance check at opening and closing, periodic polls or chat/verbal responses at least every 20 to 30 minutes, facilitator monitoring, and post-test completion. A participant who is absent, inactive, or disconnected for a material portion of the approved hours is not issued completion credit until the deficiency is resolved under an approved make-up approach.

Mapping Rule

This course is mapped to one RCFE Core of Knowledge category.

Compliance Guardrails

Draft / Pending CDSS/ACS Approval; no approval claim until issued.

Current submission is the 9-course / 27-hour LIC 9140 filed set.

Future 40-hour / 12-module RCFE LMS concept is excluded from this current Drive module folder.

Official LIC forms remain official and unbranded; this PDF is a branded derivative course packet for reviewer visibility.

Certificates are withheld until CDSS/ACS approval, attendance/participation verification, passing post-test, and issued vendor/course numbers are satisfied.

Review / Signoff Notes

Final signer should verify date(s), fees, reviewer access, instructor evidence, and any pending CDSS/ACS items before submission.

No learner-facing approval or completion certificate should be issued until approval is granted.
