No.

Question

Answer key

1

What makes a public RCFE CE claim unsafe before CDSS approval?

It may imply approval, course credit, vendor number, or course number that has not been issued.

2

Why should records be organized before CDSS submission?

Organized records reduce incomplete-response risk and support monitoring readiness.

3

What business-operation control supports audit readiness?

A document library with owner, status, source, and retention rule.

4

What should happen before using a CDSS vendor number publicly?

CDSS must issue the number and

Compliance must clear the language.

5

Which Core category applies?

Business Operations.

Active Participation Verification Method

Live-stream attendance is verified through platform log-in records, attendance check at opening and closing, periodic polls or chat/verbal responses at least every 20 to 30 minutes, facilitator monitoring, and post-test completion. A participant who is absent, inactive, or disconnected for a material portion of the approved hours is not issued completion credit until the deficiency is resolved under an approved make-up approach.
