BRN Case Management CE Package - Draft / Pending BRN CEP Approval

BRN Care Manager / RN Case Management CEP | Draft / Pending BRN CEP Approval

BRN Case Management CE Package - Draft / Pending BRN CEP Approval

Transitions of Care, Discharge Planning, and Community Resources

Provider (from master packet): CI Institute of Nursing, Inc. - 419 E. Hamilton Ave., Campbell, CA 95008 - 650-449-6706 - humanresources@ci-ion.com - <https://www.ci-ion.com>

"Pending California Board of Registered Nursing Continuing Education Provider approval. Do not advertise, issue certificates, or represent this course as approved until a BRN CEP number has been issued."

This document follows a CCCCCO-style documentation organization only (structured overview, objectives, content outline, activities, facilitator notes, assessment mapping, compliance support). No CCCCCO content is copied; all content is original and customized for California BRN Case Management CE.

Module At a Glance

Field	Value
Module ID	CM-M06
Module title	Transitions of Care, Discharge Planning, and Community Resources
Parent course	RN Case Management in Home Health: Care Coordination, Documentation, Patient Advocacy, and Safe Transitions of Care
Contact hours	3 (draft design math)
Estimated learner minutes	170 (>=150 floor)
Direct/indirect linkage	Direct patient/client care
Approval status	Draft / Pending BRN CEP Approval

BRN Relevance Rationale

Effective discharge planning and warm handoffs reduce avoidable readmissions and patient harm.

Module Description

Builds competency in transition risk assessment, discharge-plan construction, teach-back verification, and matching community resources to identified needs.

Measurable Learning Objectives

By the end of this module the learner will be able to:

- 1 Build a discharge/transition plan addressing meds, follow-up, equipment, and caregiver needs.
- 2 Apply teach-back to confirm patient/caregiver understanding.
- 3 Match at least three community resources to identified needs.
- 4 Identify red-flag gaps that should delay or modify a transition.

Required Readings / Learning Content Sections

- Reading 6.1 - Transition risk and readmission drivers.
- Reading 6.2 - Discharge-plan components.
- Reading 6.3 - Teach-back and caregiver readiness.
- Reading 6.4 - Community resources and referrals.

Detailed Lesson Outline

Lesson ID	Lesson	Est. minutes
CM-M06-L1	Transition risk & readmission drivers	35
CM-M06-L2	Discharge-plan components	40
CM-M06-L3	Teach-back & caregiver readiness	35
CM-M06-L4	Community resources & referrals	35
CM-M06-KC	Knowledge check + discharge plan	25

Total estimated instructional minutes: **170** (meets the ≥ 150 -minute / 3-contact-hour floor).

Key Terms

Term	Definition
Teach-back	Having the patient/caregiver restate or demonstrate instructions to confirm understanding.
Readmission driver	A factor that increases the chance of returning to acute care.
Warm handoff	A transfer of care conducted in real time with the patient present.
Caregiver readiness	The caregiver's ability and resources to safely support the patient.
Red-flag gap	A safety gap serious enough to delay or modify a transition.

Fictional / De-identified Case Scenario

All clinical content is fictional and de-identified. No PHI. A fictional client is going home with new oxygen equipment; the only caregiver works full time and has not been trained on the equipment.

Learner Activities

- Read Sections 6.1-6.4.
- Identify the red-flag gap(s) in the scenario.
- Match at least three community resources to needs.
- Complete the Discharge/Transition Plan and Knowledge Check 6.

Documentation / Decision-Making Exercise

Complete a Discharge/Transition Plan template (meds, follow-up, equipment, caregiver support, community resources) including a teach-back confirmation line.

Knowledge Check Blueprint

10 items, unlimited attempts, immediate feedback, no full key, $\geq 80\%$ to complete.

Assessment Items (Learner-Facing Stems)

KC6-Q1 (MCQ). Which best confirms a caregiver understands new equipment instructions?

- A) Ask 'Do you understand?'
- B) Teach-back demonstration
- C) Hand them a pamphlet
- D) Assume understanding

KC6-Q2 (MCQ). In the scenario, the untrained full-time caregiver is best treated as a:

- A) Reason to cancel care
- B) Red-flag gap to address before/at transition
- C) Billing problem
- D) Non-issue

KC6-Q3 (Multi-select). Core components of a discharge plan include: (select all)

- A) Medication reconciliation
- B) Follow-up appointments
- C) Equipment/supplies
- D) Caregiver support

LMS Completion Criteria

- All lesson pages viewed (activity completion: require view).
- CM-M06 knowledge check passed at $\geq 80\%$ (require passing grade).
- Documentation/decision exercise submitted (require submission).

Evidence Generated by Learner Completion

- Activity-completion timestamps (time-on-task evidence).
- Knowledge-check score and attempt log.
- Submitted exercise artifact (retained ≥ 4 years; no PHI).

Moodle Activity Recommendations

- Page
- Book
- Database (resources)
- Quiz (KC6)
- Assignment (plan)

Accessibility Considerations

- Captions + transcripts for any media; semantic headings; alt text on diagrams.

- Sufficient color contrast; no color-only meaning; keyboard-navigable activities.
- Accessible downloadable templates (tagged PDF + DOCX); extended-time accommodation supported.
- Target WCAG 2.1 AA on the built course.

PHI / Privacy Guardrails

- All cases fictional and de-identified; no real patient/resident/family/facility data.
- Resource directory uses fictional/generic resource types; no real client data.
- Submission reminders and (for capstone) attestation + manual PHI review.

SME Review Flags

- [[SME REVIEW REQUIRED]] Validate teach-back technique and resource categories.

Compliance Review Flags

- [[COMPLIANCE REVIEW]] Resource directory uses fictional/generic resource types; no real client data.

Internal Answer Key Appendix (ADMIN / FACULTY ONLY - DO NOT SHOW LEARNERS)

Item ID	Type	Correct answer	Rationale	Remediation
KC6-Q1	MCQ	B	Teach-back verifies understanding; yes/no questions do not.	Review Reading 6.3 (teach-back).
KC6-Q2	MCQ	B	It is a safety gap that must be addressed to ensure a safe transition.	Review Reading 6.1/6.3.
KC6-Q3	Multi-select	A, B, C, D	All four are core discharge-plan components.	Review Reading 6.2.

Debrief / Remediation Guidance

Emphasize that an unaddressed caregiver-training gap is a classic readmission driver; teach-back and resource matching close it. Failed attempts route to Reading 6.2/6.3.

Application-Packet Defensibility Notes

Discharge planning to prevent readmission harm is direct patient care and a recognized BRN-relevant topic.

Program-structure note: This module is part of the 30-contact-hour, 10-module RN case management program (10 modules x 3 contact hours; 50 instructional minutes = 1 contact hour; minimum 1,500 instructional minutes, 1,680 design minutes). The official BRN contact-hour map and transfer worksheet are aligned to this 30-contact-hour structure. Any earlier 4-contact-hour representative course is superseded and is not part of the current BRN CEP signer-review package. [[SME REVIEW REQUIRED BEFORE SUBMISSION]]

Do not advertise, issue certificates, or represent this course as BRN-approved until the official BRN CEP approval and provider number are issued.
