BRN Case Management CE Package - Draft / Pending BRN CEP Approval

BRN Care Manager / RN Case Management CEP | Draft / Pending BRN CEP Approval

BRN Case Management CE Package - Draft / Pending BRN CEP Approval

Integrated Case Management Capstone and Final Assessment

Provider (from master packet): CI Institute of Nursing, Inc. - 419 E. Hamilton Ave., Campbell, CA 95008 - 650-449-6706 - humanresources@ci-ion.com - <https://www.ci-ion.com>

"Pending California Board of Registered Nursing Continuing Education Provider approval. Do not advertise, issue certificates, or represent this course as approved until a BRN CEP number has been issued."

This document follows a CCCCCO-style documentation organization only (structured overview, objectives, content outline, activities, facilitator notes, assessment mapping, compliance support). No CCCCCO content is copied; all content is original and customized for California BRN Case Management CE.

Module At a Glance

Field	Value
Module ID	CM-M10
Module title	Integrated Case Management Capstone and Final Assessment
Parent course	RN Case Management in Home Health: Care Coordination, Documentation, Patient Advocacy, and Safe Transitions of Care
Contact hours	3 (draft design math)
Estimated learner minutes	175 (>=150 floor)
Direct/indirect linkage	Direct + indirect patient/client care
Approval status	Draft / Pending BRN CEP Approval

BRN Relevance Rationale

Synthesizes nurse-led care management across the full patient journey and verifies competency.

Module Description

Integrates assessment, coordination, documentation, advocacy, transitions, UR, and QA into one fictional end-to-end case, then verifies mastery via a cumulative final examination.

Measurable Learning Objectives

By the end of this module the learner will be able to:

- 1 Integrate assessment, coordination, documentation, advocacy, transitions, and QA into one case.
- 2 Produce an audit-ready, de-identified case-management documentation package.
- 3 Demonstrate $\geq 80\%$ mastery on a cumulative final assessment.
- 4 Reflect on implicit-bias and ethical considerations in the integrated case.

Required Readings / Learning Content Sections

- Briefing 10.1 - Capstone scenario and rubric walkthrough.
- Work session 10.2 - Building the integrated case package.
- Self-review 10.3 - Rubric self-check.
- Final exam 10.4 - Cumulative assessment (bank draw).

Detailed Lesson Outline

Lesson ID	Lesson	Est. minutes
CM-M10-L1	Capstone briefing & rubric walkthrough	30
CM-M10-L2	Building the integrated case package	60
CM-M10-L3	Self-review against rubric	25
CM-M10-FE	Final cumulative assessment	60

Total estimated instructional minutes: **175** (meets the ≥ 150 -minute / 3-contact-hour floor).

Key Terms

Term	Definition
Capstone	A culminating, integrative performance task demonstrating competence.
Rubric	A scoring guide defining criteria and performance levels.
Cumulative assessment	A summative exam covering the entire course.
Integration	Combining skills from all modules into coherent practice.
Internal answer key	An admin/faculty-only key, never shown to learners.

Fictional / De-identified Case Scenario

All clinical content is fictional and de-identified. No PHI. A fictional, de-identified high-risk home-health client is followed from intake through a safe transition; the learner produces the full documentation package.

Learner Activities

- Review the capstone briefing and rubric.
- Assemble the integrated case package (nine artifacts).
- Complete the rubric self-check.
- Sit the cumulative final exam ($\geq 80\%$ to pass).

Documentation / Decision-Making Exercise

Submit the Capstone Documentation Package: intake/assessment, care plan, coordination map + SBAR, audit-ready chart note, consent/advocacy + ethics reflection, discharge/transition plan with teach-back, medical-necessity rationale, incident/escalation note, and risk-stratification + monitoring plan - all fictional and de-identified, with a no-PHI attestation.

Knowledge Check Blueprint

Capstone rubric self-check; the cumulative final exam (40-50 items, ~4-5 per module, bank draw, shuffled, time-limited, max 3 attempts, no full key) is the summative assessment. $\geq 80\%$ to pass.

Assessment Items (Learner-Facing Stems)

FINAL-SCN1 (Scenario). Given the fictional end-to-end case, select the action sequence that best protects a safe transition.

- A) Reconcile meds -> confirm follow-up -> teach-back -> document
- B) Discharge first -> reconcile later
- C) Skip teach-back if rushed
- D) Defer all follow-up to the family

FINAL-Q2 (MCQ). Across the case, which is always required before issuing a certificate of completion?

- A) A blank certificate on file
- B) Meeting all completion criteria + final $\geq 80\%$
- C) A real CEP number regardless of approval
- D) Family sign-off

FINAL-BANK (Bank (40-50 items)). Cumulative bank: ~4-5 items per module, randomized draw across all 10 modules.

- Mixed MCQ / multi-select / true-false / scenario

LMS Completion Criteria

- Capstone package submitted and meets the rubric minimum on every criterion.
- Cumulative final exam passed at $\geq 80\%$.
- Course evaluation submitted (course-level gate).

Evidence Generated by Learner Completion

- Activity-completion timestamps (time-on-task evidence).
- Knowledge-check score and attempt log.
- Submitted exercise artifact (retained ≥ 4 years; no PHI).
- Capstone submission + rubric scoring + no-PHI attestation.
- Final-exam attempt record + item analytics.

Moodle Activity Recommendations

- Page (briefing)
- Assignment (capstone, rubric-graded)
- Quiz (final, gated $\geq 80\%$)
- Certificate (gated)

Accessibility Considerations

- Captions + transcripts for any media; semantic headings; alt text on diagrams.
- Sufficient color contrast; no color-only meaning; keyboard-navigable activities.

- Accessible downloadable templates (tagged PDF + DOCX); extended-time accommodation supported.
- Target WCAG 2.1 AA on the built course.

PHI / Privacy Guardrails

- All cases fictional and de-identified; no real patient/resident/family/facility data.
- Capstone instructions forbid real cases; automated no-PHI reminder + manual PHI review before scoring.
- Submission reminders and (for capstone) attestation + manual PHI review.

SME Review Flags

- [[SME REVIEW REQUIRED]] Capstone rubric and final-exam items require SME authoring and sign-off for validity/fairness.

Compliance Review Flags

- [[COMPLIANCE REVIEW]] Capstone instructions forbid real cases; automated no-PHI reminder + manual PHI review before scoring.

Internal Answer Key Appendix (ADMIN / FACULTY ONLY - DO NOT SHOW LEARNERS)

Item ID	Type	Correct answer	Rationale	Remediation
FINAL-SCN1	Scenario	A	Reconcile, confirm follow-up, verify understanding, then document - integrates M03/M04/M06/M08.	Route to the weakest objective area; require re-do before retry.
FINAL-Q2	MCQ	B	Certificates issue only after completion criteria + passing the final; no blank certificates.	Review the certificate-gate logic.
FINAL-BANK	Bank (40-50 items)	Per SME-validated key (admin-only)	SME-authored rationales per item; not shown to learners.	Remediation routing between attempts; lock after 3 attempts -> faculty review.

Debrief / Remediation Guidance

Faculty debrief uses the rubric to give criterion-level feedback (no answer key). After a failed final, route to remediation and require a short reflection/re-do before the next attempt; lock after three attempts for faculty/SME review.

Application-Packet Defensibility Notes

Demonstrates integrated nurse-led care management and verifies competency, supporting the course's overall BRN relevance and rigor.

Program-structure note: This module is part of the 30-contact-hour, 10-module RN case management program (10 modules x 3 contact hours; 50 instructional minutes = 1 contact hour; minimum 1,500 instructional minutes, 1,680 design minutes). The official BRN contact-hour map and transfer worksheet are aligned to this 30-contact-hour structure. Any earlier 4-contact-hour representative course is superseded and is not part of the current BRN CEP signer-review package. [[SME REVIEW REQUIRED BEFORE SUBMISSION]]

Do not advertise, issue certificates, or represent this course as BRN-approved until the official BRN CEP approval and provider number are issued.
