STUDENT TUITION RECOVERY FUND ASSESSMENT REPORTING FORM

(California Education Code §94923; Title 5, California Code of Regulations §76020, and §76120-76140)

Schools are required to submit Student Tuition Recovery Fund (STRF) Assessment Reporting Forms quarterly and maintain all back-up documentation for STRF. Please follow the STRF Assessment Reporting Form instructions when completing the form below.

Reporting Period: 4th Quarter 2025 (October 1, 2025 - December 31, 2025)

A	Enter the total number of students who signed enrollment agreements during the reporting period indicated above.	0
B	Enter the total number of students from line (A) who are eligible for STRF.	0
C	Enter the total number of students from line (B) who have made their first payment this reporting period.	0
D	Enter the total institutional charges (after rounding each student's school charges to the nearest \$1,000) for all students from line (C)	\$ 0

In Table 1 below, enter the same number of students listed in line C and the same institutional charges from line D. Then, multiply the institutional charges by the rate to determine the amount due.

Table 1	Year	Quarter	Number of Students	Institutional Charges	Rate	Amount Due
	0		0	\$ 0	0	\$ 0

E	Enter the total number of students who signed enrollment agreements in a prior reporting period and who have made their first payment this reporting period.	1
----------	--	---

If applicable, fill out Table 2 by listing the year and quarter students from line (E) enrolled. Then, enter the total institutional charges for each quarter listed. Multiply the total charges by the rate to calculate the amount due. To find the rate for prior reporting periods, check the STRF Assessment Fee Chart at bppe.ca.gov/lawsregs/strf.

Table 2	Year	Quarter	Number of Students	Institutional Charges	Rate	Amount Due
	2025	Quarte 3	1	2,000.00	0	\$ 0
						\$

F	Total Payment Due (Add the amount(s) due from Table 1 and Table 2)	\$ 0
----------	--	------

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion.

As the world's population grows, the demand for food and other resources will increase. This will put pressure on the environment and on the world's resources.

One of the main reasons for this is that the world's population is growing so fast that it is putting a strain on the environment. This is because the world's population is growing so fast that it is putting a strain on the environment.

One of the main reasons for this is that the world's population is growing so fast that it is putting a strain on the environment. This is because the world's population is growing so fast that it is putting a strain on the environment.

INSTRUCTIONS FOR COMPLETING STUDENT TUITION RECOVERY FUND ASSESSMENT FORM

(California Education Code §94923; Title 5, California Code of Regulations §76020-76140)

Schools are required to maintain all back-up documentation for STRF and submit STRF Assessment Reporting Forms quarterly. To report the STRF assessment for prior quarters, review the STRF Assessment Fee Chart at bppe.ca.gov/lawsregs/strf.shtml to verify the applicable STRF rate. Please follow the instructions when completing the STRF Assessment Reporting Form.

Report all students signing enrollment agreements during the reporting period.

COMPLETE THIS FORM IN ITS ENTIRETY AS FOLLOWS:

1. On line (A), enter the TOTAL number of ALL students enrolled during this reporting period.
2. On line (B), enter the TOTAL number of those students on line (A) who are STRF eligible.

INCLUDE:

- California residents and students in residential programs pursuant to Title 5, Division 7.5 of the California Code of Regulations section 76120(a).

DO NOT INCLUDE:

- Students who received a **100%** refund pursuant to section 94919(d) or section 94920(b) of the California Education Code.
3. On line (C), enter to total number of students from line (B) who have made their first payment of institutional charges to the institution during **this** reporting period.
 4. On line (D), enter the total charges for all eligible STRF students reported on lines (C). Before summing up the total charges for all students, each student's institutional charges shall be **ROUNDED TO THE NEAREST \$1,000**. For example, if there are 10 students with charges of \$1,600, first round up each student's charges to \$2,000 then add them all together. In this case, the total charges you would enter on line (E) is \$20,000. When rounding the student's charges to the nearest \$1,000, apply the general rule of rounding.

For instance:

- If the student's total institutional charges are less than \$1,000, down to \$0.
- If the student's total institutional charges are \$1,499.99 or less, round down to \$1,000.
- If the student's total institutional charges are \$1,500 or greater, round up to \$2,000.

In Table 1:

- Enter the same number of students listed in line C and the same institutional charges from line D. Then, multiply the institutional charges by the current rate to determine the amount due (**the current rate is 0**).
5. On line (E), enter the total number of students who signed enrollment agreements in prior reporting periods but have recently made their first payment to the school and whose STRF assessments were collected in **this** reporting period.

In Table 2 (if applicable):

- Enter the year, quarter, number of students, and the total institution charges rounded to the nearest \$1,000 per each student from each applicable prior reporting period(s). Then, multiply the institutional charges by the rate to determine the amount due. For prior quarter STRF assessment fee rates, reference the STRF Assessment Fee Chart at <https://bppe.ca.gov/lawsregs/strf.shtml>
6. On line (F), enter the total payment due. Add the amount(s) due in Table (1) and Table (2).
 7. The person completing the form shall provide a contact number, email, sign, and date the document.
 8. Remit the amount from line (F) along with the completed Student Tuition Recovery Fund (STRF) Assessment Reporting Form to the Bureau.
