

CI INSTITUTE OF NURSING

CERTIFIED NURSE ASSISTANT
TRAINING PROGRAM

Module 8: Patient Care Skills

CI INSTITUTE

MODULE 8:

Patient Care Skills

Minimum Number of Theory Hours:

14

Recommended Clinical Hours:

40

Module 8: Patient Care Skills

CI INSTITUTE

STATEMENT OF PURPOSE

The purpose of this unit is to teach the students skills needed to support and/or assist the patient/resident in the areas of personal hygiene, an area of activities of daily living, and elimination. Personal hygiene or personal care is generally performed independently. The Nurse Assistant should assist with or perform personal care only when patients/residents are unable to perform a skill for themselves. Other activities included in this module are use of prosthetic devices, bowel and bladder retraining, and weighing and measuring height of the patient/resident.

TERMINOLOGY:

1. Abrasion
2. Aspiration
3. Axilla
4. Catheter
5. Colostomy
6. Constipation
7. Cyanosis
8. Decubitus ulcer
9. Defecation
10. Dermis
11. Diarrhea
12. Elimination
13. Epidermis
14. Erythema
15. Eschar
16. Excoriation
17. Fecal
18. Feces
19. Flatulence
20. Hour of sleep (h.s.)
21. Ileostomy
22. Impaction
23. Incontinence
24. Jejunostomy
25. Neuropathy
26. Nits
27. Oral hygiene
28. Osteomyelitis
29. Ostomy
30. Perineum/Perineal
31. Pressure sore
32. Prosthesis
33. Stoma
34. Stool
35. Urinal
36. Urinary incontinence
37. Urination
38. Urine

Patient, resident, and client are synonymous terms referring to the person receiving care

PERFORMANCE STANDARDS

Upon completion of fourteen (14) hours of class plus homework assignments and forty (40) hours of clinical experience, the learner will be able to:

1. Define key terminology
2. Identify and assist patients/residents with daily routine care, promoting independence and dignity

BATHING and FOOT CARE

3. Identify benefits of bathing and list five areas of body that require bathing daily
4. Describe the procedure for bathing patients/residents and safety guidelines

ORAL HYGIENE

5. List purposes and schedule for oral hygiene
6. Describe procedure of oral hygiene and denture care for a patient/resident needing assistance, and for the unconscious individual

PERFORMANCE STANDARDS

NAIL CARE, HAIR CARE, SHAVING

7. Identify the Nurse Assistant role and responsibility for patient/resident nail care
8. Identify Nurse Assistant role and responsibility for caring for hair of patients/residents
9. Describe procedure for shaving a patient/resident

SKIN CARE

10. List ways to maintain healthy skin and identify at risk patients.
11. Describe causes, signs and symptoms, and staging of pressure sores.
12. Describe general nursing measures to prevent and treat pressure sores DRESSING THE PATIENT/RESIDENT
13. Describe general guidelines for selecting and caring for patient's/resident's clothing
14. Discuss rationale for use of street clothes and guidelines for dressing or undressing a patient/resident

PERFORMANCE STANDARDS

URINARY AND BOWEL ELIMINATION

- 15. Describe the usual frequency pattern for urination
- 16. List the observations to be made about urine
- 17. Describe urinary incontinence and the need for immediate care
- 18. Describe the purpose and general rules of care for urinary catheters
- 19. Describe the goals and methods for bowel and bladder training
- 20. Describe the normal pattern of bowel movements and reportable observations
- 21. Explain the purpose of an ostomy and the care of patients/residents with an ostomy

MEASURING HEIGHT AND WEIGHT

- 22. Describe the procedures for weighing and measuring height of the patient/resident

PROSTHETIC DEVICES

- 23. Describe common prosthetic devices and their care (artificial limbs, contact lenses, dentures, eyeglasses and hearing aids)
- 24. Describe the application, removal and care for “behind the ear” hearing aids

/// DEFINE KEY TERMINOLOGY

- A. Review the terms listed in the terminology section
- B. Spell the listed terms accurately
- C. Pronounce the terms correctly
- D. Use the terms in their proper context

Describe the procedure for bathing patients/residents and safety guidelines.

A. General steps for bed bath

1. Check with licensed nurse regarding type of bath
 - a. Complete bed bath
 - b. Partial bed bath
 - 1) Done on days when complete bed bath not given
 - 2) The partial bath consists of washing the patient's/resident's face, hands, axilla, back, buttocks, and genital area (perineal care)
2. Gather equipment (bath blanket, basin, soap, water thermometer, wash cloths, bath towels)
3. Wash hands
4. Check patient's/resident's personal choices (water temperature, soap etc.)
5. Identify patient/resident
6. Identify yourself to patient/resident
7. Provide privacy
 - a. Close door
 - b. Pull curtain around patient/resident
 - c. Only uncover area being washed
 - d. Facility policy may vary

Describe the procedure for bathing patients/residents and safety guidelines.

8. Follow standard precautions and blood borne pathogen standards
9. Assure adequate comfort, such as room temperature, freedom from drafts and adequately covered
10. Use comfortably warm water, change it when it becomes soapy, dirty or cold
11. Bathe areas soiled by fecal material or urine with soap and water
12. Wash from cleanest to dirtiest area
13. Rinse off all soap
14. Pat skin dry
15. Encourage patient/resident to help as much as possible

Describe the procedure for bathing patients/residents and safety guidelines.

B. Safety guidelines

1. Monitor correct water temperature
2. Use safety equipment, such as grab bars, nonskid surfaces, emergency call buttons and safety belts
3. Stay with patient/resident
4. Use correct body mechanics

C. Reportable observations during bathing

1. Color of skin, whites of eyes, lips, nail beds
2. Rashes; locations and description
3. Dry skin, bruising or open areas
4. Pale or reddened areas
5. Drainage or bleeding
6. Swollen legs or feet
7. Complaints of pain or discomfort
8. Skin temperature
