

CI Institute of Nursing

RCFE Administrator Continuing Education Training Program (CETP) CDSS Vendor Approval Project Binder

Prepared for Team Execution and Compliance Review

Prepared by: TJ Padilla

Project Oversight: Dee Bustos

June 1, 2026

ciinstituteofnursing.com

419 E Hamilton Ave, Campbell, CA 95008

Executive Summary

CI Institute of Nursing is preparing a dedicated RCFE Administrator Continuing Education Training Program approval track for CDSS review. This binder converts current RCFE/CDSS research into an internal execution packet for leadership review, compliance review, and team completion.

Gate Status

Execution may continue internally.

No CDSS submission, signatures, approval claims, certificates, or issued-number use until final clearance.

First-wave draft: 9 courses, 27 hours, \$270 course-fee planning total.

Status Matrix

Area	Status	Executive note
Vendor application	Drafted	LIC 9141 filled draft prepared with pending fields.
Course packets	Drafted	9 LIC 9140 course packets with post-tests and source lists.
Instructor docs	[PENDING CONFIRMATION]	Names, resumes, qualifications, and disclosures required.
Reviewer access	[PENDING CONFIRMATION]	LMS/live-stream account and access instructions required.
Finance	Drafted	\$140 vendor fee plus \$270 course fees.
Leadership	[PENDING CONFIRMATION]	Dee final approval required before submission.

Project Charter

Field	Value
Institution	CI Institute of Nursing
Program	RCFE Administrator Continuing Education Training Program (CETP)
Binder	CDSS Vendor Approval Project Binder
Purpose	Prepared for Team Execution and Compliance Review
Project Oversight	Dee Bustos
Physical address	419 E Hamilton Ave, Campbell, CA 95008
Mailing address	890 Santa Cruz Ave, Menlo Park, CA 94025-4641

The CI Institute of Nursing document library and repository materials were used as the institutional baseline for identifying existing CNA, HHA, Moodle, Marketing, and CDPH documentation. This RCFE CETP Project Binder separates the CDSS RCFE CETP approval track from those existing materials.

Team Execution Summary

Team	Provided	Action Steps	Output
Compliance	CDSS source index, forms, risk register	Clear pending fields, form versions, website claims	Submission-cleared package
Course Development	Course packets and post-tests	Finalize materials, assign instructors	LIC 9140 attachments
Forms / Corporate Docs	LIC 9141 draft and checklist	Confirm legal/entity and signer data	Corporate support file
Instructor Documentation	Qualification packet	Collect resumes/disclosures	Instructor support file
LMS / Reviewer Access	Participation controls	Validate reviewer account	Reviewer-ready access
Website / Catalog	Claim-safe rules	Remove approval claims	Claim-safe catalog
Finance / Fees	Fee worksheet	Approve payment method	Payment-ready package
Leadership	Binder and gate	Approve after clearance	Submission authorization

Critical Path to Submission

Full-page dependency view. Critical dependencies block CDSS submission; parallel work can continue while pending fields are resolved.

Workstream	Task	Owner	Dependency	Duration	Gate	Status	Risk if delayed
Compliance	Confirm current CDSS source baseline	Compliance	Official forms downloaded	1 day	Gate 1	Drafted	Outdated forms create return risk.
Forms / Corporate Documentation	Complete LIC 9141 and corporate support	Compliance + Finance	Legal/entity/source docs	2-4 days	Gate 2	[PENDING CONFIRMATION]	Application cannot be signed or submitted.
Course Development	Finalize first-wave course packets	Course Development	Course list and CDSS source review	4-7 days	Gate 2	Drafted	LIC 9140 return or denial risk.
Instructor Documentation	Attach instructor resumes and disclosures	Compliance + Course Development	Instructor slate	2-5 days	Gate 2	[PENDING CONFIRMATION]	Course approvals remain incomplete.
LMS / Reviewer Access	Validate live-stream/LMS reviewer access	LMS Team	Course packets and platform account	2-4 days	Gate 3	[PENDING CONFIRMATION]	Reviewer cannot inspect online/live-stream delivery.
Website / Catalog	Clear pending-approval catalog language	Website / Catalog	Course list and claim rules	1-2 days	Gate 3	[PENDING CONFIRMATION]	Public claim risk.
Finance / Fees	Approve vendor and course fee worksheet	Finance	Course hours and filing path	1 day	Gate 3	Drafted	Incomplete payment can trigger 30-day cure window.
Leadership Approval	Dee final submission approval	Leadership	All prior gates	1 day	Final Gate	[PENDING CONFIRMATION]	Submission not authorized.
CDSS Submission	Submit LIC 9141 and LIC 9140 packets	Compliance	Final Gate	1 day	Submission	Not started	Late submission affects planned offering date.

Parallel Work

Course materials, LMS shells, website draft copy, and operations logs may continue before final submission.
Final gate blocks CDSS submission, signatures, approval claims, certificates, and use of issued numbers.

Compliance Tasks

- Check official CDSS form versions immediately before submission.
- Resolve all pending form fields with source-backed documentation.
- QA LIC 9140 attachments against the ACB course-review guide.
- Clear website/catalog language before publication.
- Prepare the 30-day incomplete-notice response workflow.

Course Development Tasks

The first-wave catalog is designed around whole-hour RCFE CETP courses mapped to one RCFE Core of Knowledge subject each.

Course	Hours	Core category	Delivery	CDSS fee
RCFE Laws, Regulations, Policies, and Procedural Standards	4	Laws, Regulations, Policies, and Procedural Standards Impacting RCFE	Live-Stream + LMS	\$40
Alzheimer's Disease and Related Dementias: Person-Centered Care Foundations	4	Managing Alzheimer's Disease and Related Dementias	Live-Stream + LMS	\$40
Alzheimer's Disease and Related Dementias: Safety, Environment, and Documentation	4	Managing Alzheimer's Disease and Related Dementias	Live-Stream + LMS	\$40
Resident Rights, Dignity, Councils, and Abuse Prevention	2	Residents' Rights	Live-Stream + LMS	\$20
Medication Management in RCFE Operations	4	Medication Management	Live-Stream + LMS	\$40
Admission, Retention, Reappraisal, and Needs and Services Plans	3	Resident Admission, Retention, and Assessment Procedures	Live-Stream + LMS	\$30
Emergency Procedures and Physical Environment Controls	2	Managing the Physical Environment	Live-Stream + LMS	\$20
Staff Supervision, Training Records, and Administrator Accountability	2	Management/Supervision of Staff	Live-Stream + LMS	\$20
RCFE Business Operations, Records, and Claim-Safe Communications	2	Business Operations	Live-Stream + LMS	\$20

LMS / Reviewer Access

- Create reviewer-ready LMS area for each course.
- Validate credentials through a controlled channel.
- Prepare attendance, activity, and post-test reporting samples.
- Disable certificate issuance before approval.

Website and Catalog Controls

- Use pending-approval language only if public mention is necessary.
- Remove language implying CDSS approval or administrator-renewal credit before issuance.
- Publish approved course numbers and vendor number only after CDSS issuance and Compliance clearance.

CDSS Forms and Appendices

Appendix	Contents	Status
A	LIC 9141, vendor fee notice, corporate checklist	Drafted with pending fields
B	LIC 9140 drafts, course packets, course fee notice	Drafted
C	Instructor docs and LIC 9140A post-approval reference	[PENDING CONFIRMATION]
D	Roster, schedule notification, certificate sample, logs	Prepared for post-approval

Instructor Qualification Packet

Instructor documentation remains pending until the instructor slate, resumes, qualification pathway evidence, and disclosure answers are confirmed. LIC 9140A is included as a post-approval reference only unless ACB directs otherwise.

Requirement	Status
Instructor roster	[PENDING CONFIRMATION]
Current resume	[PENDING CONFIRMATION]
Qualification pathway evidence	[PENDING CONFIRMATION]
Disclosure questions	[PENDING CONFIRMATION]
Segment assignment	[PENDING CONFIRMATION]

Course Approval Documentation

RCFE-CETP-001 - RCFE Laws, Regulations, Policies, and Procedural Standards

Field	Draft
Hours	4
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Laws, Regulations, Policies, and Procedural Standards Impacting RCFE
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course prepares RCFE administrators to identify and apply current California RCFE statutory, regulatory, policy, and procedural standards in daily operations, incident response, documentation, and compliance decision-making.

Objectives

- Identify the role of Health and Safety Code section 1569 and Title 22, Division 6, Chapter 8 in RCFE operations.
- Differentiate licensing, certification, mandated reporting, complaint, personal rights, and recordkeeping obligations.
- Apply a regulatory cross-check process before implementing a policy or operational change.
- Recognize situations requiring escalation before public claims, certificates, or CDSS submissions are made.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	RCFE legal framework, CDSS/CCLD structure, certification context, and official CDSS resource navigation.	[PENDING CONFIRMATION]
Hour 2	Title 22 operating requirements, mandated reporting, confidentiality, complaint procedures, and personal rights.	[PENDING CONFIRMATION]
Hour 3	Policies, procedural controls, documentation standards, staff communication, and escalation triggers.	[PENDING CONFIRMATION]
Hour 4	Scenarios applying laws and procedural standards to admissions, incidents, records, and public-facing language.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	Which source should be checked first when confirming RCFE operating requirements?	California Code of Regulations, Title 22, Division 6, Chapter 8.
2	What must occur before CDSS-approved RCFE CE status is advertised?	CDSS approval must be issued and approval claims must be cleared.
3	Why avoid approval claims before CDSS action?	Premature claims can mislead administrators and create compliance risk.
4	What is the control when rule interpretation is uncertain?	Escalate to Compliance and mark pending CDSS confirmation.
5	Which Core category applies?	Laws, Regulations, Policies, and Procedural Standards Impacting RCFE.

RCFE-CETP-002 - Alzheimer's Disease and Related Dementias: Person-Centered Care Foundations

Field	Draft
Hours	4
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test

Field	Draft
Core category	Managing Alzheimer's Disease and Related Dementias
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course focuses on dementia-care foundations for RCFE administrators, including person-centered approaches, communication, behavior interpretation, individualized service planning, staff direction, and documentation expectations.

Objectives

- Describe common dementia-related changes that affect communication, behavior, safety, and care planning.
- Identify non-pharmacologic, person-centered strategies for responding to distress and unmet needs.
- Connect dementia care practices to RCFE assessment, service planning, supervision, and documentation responsibilities.
- Evaluate whether staff instructions align with resident dignity, safety, and regulatory expectations.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Dementia overview, common symptoms, progression, and administrator-level implications.	[PENDING CONFIRMATION]
Hour 2	Communication methods, behavior interpretation, unmet-needs framework, and de-escalation principles.	[PENDING CONFIRMATION]
Hour 3	Individualized service planning, family communication, activities, staff coaching, and documentation.	[PENDING CONFIRMATION]
Hour 4	Case scenarios: person-centered interventions, risk documentation, and escalation decisions.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What is the first operational question when a resident with dementia becomes distressed?	What unmet need, trigger, pain, fear, or environmental factor may be contributing?
2	Why should dementia interventions be documented?	Documentation supports continuity, supervision, accountability, and regulatory review.
3	Which approach best aligns with person-centered care?	Adapting communication and environment to the resident's history, abilities, and needs.
4	What should staff do when dementia-related behavior creates immediate safety risk?	Follow the approved safety protocol and escalate according to facility policy.
5	Which Core category applies?	Managing Alzheimer's Disease and Related Dementias.

RCFE-CETP-003 - Alzheimer's Disease and Related Dementias: Safety, Environment, and Documentation

Field	Draft
Hours	4
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Managing Alzheimer's Disease and Related Dementias
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course expands dementia CE coverage by focusing on environmental safety, restricted access considerations, dangerous-item controls, staff monitoring, activity adaptation, care-plan updates, and incident documentation.

Objectives

- Identify environmental and supervision controls relevant to residents living with dementia.
- Evaluate dementia-care safety risks involving egress, dangerous items, nutrition, hydration, and activities.
- Document safety observations, interventions, family communication, and service-plan updates accurately.
- Recognize when a change in condition requires reassessment, care coordination, or leadership escalation.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Dementia-related safety risks, environmental cues, egress awareness, and dangerous-item controls.	[PENDING CONFIRMATION]
Hour 2	Activities, nutrition, hydration, sleep, wandering risk, and staffing communication.	[PENDING CONFIRMATION]
Hour 3	Observation, charting, care-plan updates, family communication, and reportable-event awareness.	[PENDING CONFIRMATION]
Hour 4	Scenario review: environmental controls, staff direction, documentation, and resident dignity.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What type of control reduces dementia-related safety risk without undermining dignity?	A person-centered environmental or supervision control tailored to the resident's assessed need.
2	When should a dementia care plan be updated?	When observation, condition change, incident, or service need indicates the current plan is no longer sufficient.
3	Why are hydration and nutrition part of dementia safety planning?	Changes in cognition can affect intake, cueing needs, and risk of decline.
4	What must staff avoid when describing dementia-related behavior?	Judgmental labels that do not document objective observations and interventions.
5	How many dementia hours do RCFE administrators generally need within a 40-hour renewal cycle?	At least 8 hours.

RCFE-CETP-004 - Resident Rights, Dignity, Councils, and Abuse Prevention

Field	Draft
Hours	2
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Residents' Rights
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course prepares administrators to operationalize RCFE resident rights through staff training, care planning, family communication, resident and family councils, abuse-prevention controls, and complaint response.

Objectives

- Identify key RCFE resident rights and operational practices that protect dignity and choice.
- Recognize staff behaviors and facility practices that may create resident-rights risk.
- Apply a complaint and abuse-prevention escalation process consistent with claim-safe training standards.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Resident rights, dignity, privacy, choice, councils, family engagement, and complaint pathways.	[PENDING CONFIRMATION]
Hour 2	Abuse-prevention controls, staff training scenarios, documentation, escalation, and corrective action.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What is a core operational purpose of resident rights training?	To ensure staff decisions preserve dignity, choice, privacy, and safety.
2	What should occur when a resident-rights complaint is received?	Document, escalate, investigate, and respond according to approved policy.

No.	Question	Answer
3	Why are resident and family councils relevant?	They support resident voice, issue identification, communication, and quality improvement.
4	What documentation style is most appropriate for rights concerns?	Objective facts, actions taken, notifications, and follow-up.
5	Which Core category applies?	Residents' Rights.

RCFE-CETP-005 - Medication Management in RCFE Operations

Field	Draft
Hours	4
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Medication Management
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course addresses administrator-level medication management responsibilities, including assistance with self-administered medications, storage, documentation, disposal, communication, error prevention, and escalation.

Objectives

- Differentiate administrator oversight duties from clinical medication decision-making.
- Identify common medication documentation, storage, disposal, and communication controls in RCFE operations.
- Recognize medication-error risk patterns and escalation triggers.
- Apply a medication-management audit checklist to sample scenarios.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	RCFE medication management framework, resident profiles, and physician/pharmacy communication.	[PENDING CONFIRMATION]
Hour 2	Storage, labeling, documentation, disposal, PRN awareness, and controlled-access controls.	[PENDING CONFIRMATION]
Hour 3	Common errors, staff training, observation, escalation, and incident review.	[PENDING CONFIRMATION]
Hour 4	Scenario audit: records, missed doses, changed orders, refusals, and communication chain.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What is an administrator-level medication control?	Ensuring staff follow approved documentation, storage, communication, and escalation procedures.
2	What should occur when medication instructions are unclear?	Escalate for clarification through the approved physician/pharmacy communication process.
3	Why are medication refusals documented?	They affect resident safety, communication, follow-up, and regulatory review.
4	What should a medication audit check include?	Orders, labels, logs, storage, disposal, staff training, and error follow-up.
5	Which Core category applies?	Medication Management.

RCFE-CETP-006 - Admission, Retention, Reappraisal, and Needs and Services Plans

Field	Draft
Hours	3
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Resident Admission, Retention, and Assessment Procedures
Instructor	[PENDING CONFIRMATION]

Field	Draft
Reviewer access	[PENDING CONFIRMATION]

This course prepares administrators to manage admission and retention decisions, pre-admission appraisal, physician documentation, reappraisal, needs and services plans, and escalation when resident needs change.

Objectives

- Identify records and decision points used in RCFE admission and retention review.
- Explain how appraisal, physician reports, and service planning guide resident care decisions.
- Recognize when a change in condition requires reappraisal, external coordination, or leadership review.
- Apply documentation controls to sample admission and retention scenarios.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Admission screening, pre-admission appraisal, physician report, resident characteristics, and fit review.	[PENDING CONFIRMATION]
Hour 2	Needs and services plans, reassessment triggers, documentation standards, and family/provider communication.	[PENDING CONFIRMATION]
Hour 3	Retention scenarios, relocation/eviction awareness, exception/escalation controls, and record audit.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What is the function of a needs and services plan?	It translates assessed resident needs into services, monitoring, documentation, and staff direction.
2	When should reappraisal be considered?	When resident condition, behavior, care needs, or safety risks materially change.
3	Why should admission decisions be documented carefully?	They support resident safety, regulatory compliance, and defensible operations.
4	What should happen when retention is uncertain?	Escalate to leadership and Compliance before a final decision.
5	Which Core category applies?	Resident Admission, Retention, and Assessment Procedures.

RCFE-CETP-007 - Emergency Procedures and Physical Environment Controls

Field	Draft
Hours	2
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Managing the Physical Environment
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course addresses administrator controls for physical environment safety, emergency procedures, maintenance, housekeeping, passageways, hazardous materials, water and temperature considerations, and disaster-plan readiness.

Objectives

- Identify physical-environment risks that affect resident safety in RCFE settings.
- Apply an emergency and environmental readiness checklist to sample facility scenarios.
- Recognize documentation and escalation controls for environmental hazards and disaster readiness.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Physical environment requirements, maintenance, housekeeping, passageways, hazardous storage, and safety checks.	[PENDING CONFIRMATION]
Hour 2	Emergency procedures, disaster-plan readiness, communication, drills, and environmental risk documentation.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	Why are clear passageways an administrator concern?	They affect resident safety, emergency movement, and regulatory compliance.
2	What should happen when an environmental hazard is identified?	Document, correct or mitigate, communicate, and escalate when risk remains.
3	What is a disaster-plan readiness control?	Maintaining current procedures, staff awareness, drills, supplies, and communication plans.
4	Why are hazardous materials storage controls important?	They reduce resident access risk and support safe operations.
5	Which Core category applies?	Managing the Physical Environment.

RCFE-CETP-008 - Staff Supervision, Training Records, and Administrator Accountability

Field	Draft
Hours	2
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test
Core category	Management/Supervision of Staff
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course focuses on administrator responsibilities for staff supervision, role clarity, onboarding, training records, day/night coverage communication, performance follow-up, and documentation of corrective coaching.

Objectives

- Identify staff supervision controls that support resident care and regulatory readiness.
- Explain how training records, duty assignments, and communication tools support accountability.
- Apply a coaching and documentation approach to staff performance scenarios.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Staff supervision framework, role clarity, staffing patterns, day/night communication, and training requirements.	[PENDING CONFIRMATION]
Hour 2	Performance coaching, corrective documentation, personnel file controls, and supervision scenarios.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What should staff supervision documentation show?	Expectations, observations, coaching, follow-up, and escalation when needed.
2	Why are training records part of supervision?	They show staff were prepared for assigned duties and support compliance review.
3	What is a risk of unclear role assignments?	Gaps in care, inconsistent documentation, and reduced accountability.
4	When should a staffing issue be escalated?	When resident safety, regulatory compliance, or coverage expectations may be affected.
5	Which Core category applies?	Management/Supervision of Staff.

RCFE-CETP-009 - RCFE Business Operations, Records, and Claim-Safe Communications

Field	Draft
Hours	2
Delivery	Live-Stream initial delivery with LMS-supported materials and post-test

Field	Draft
Core category	Business Operations
Instructor	[PENDING CONFIRMATION]
Reviewer access	[PENDING CONFIRMATION]

This course addresses business-operation controls relevant to RCFE administrators, including records, fiscal and operational documentation, audit readiness, public-facing communication, and claim-safe management practices.

Objectives

- Identify RCFE business-operation records and controls that support compliant management.
- Distinguish operational communication from public claims that require approval confirmation.
- Apply an audit-readiness checklist to business records, training records, and public-facing statements.

Hour-by-Hour Outline

Segment	Content	Instructor
Hour 1	Business-operation controls, records, fiscal documentation, plan-of-operation awareness, and audit readiness.	[PENDING CONFIRMATION]
Hour 2	Claim-safe communications, catalog and website language, approval-number controls, and scenario review.	[PENDING CONFIRMATION]

Assessment and Certificate Rule

Participants must attend the full approved duration, complete active participation checks, and pass the post-test with a minimum score of 80 percent. No certificate is issued until CDSS approval is received and vendor/course numbers are available.

Post-Test Answer Key

No.	Question	Answer
1	What makes a public RCFE CE claim unsafe before CDSS approval?	It may imply approval, course credit, vendor number, or course number that has not been issued.
2	Why should records be organized before CDSS submission?	Organized records reduce incomplete-response risk and support monitoring readiness.
3	What business-operation control supports audit readiness?	A document library with owner, status, source, and retention rule.
4	What should happen before using a CDSS vendor number publicly?	CDSS must issue the number and Compliance must clear the language.
5	Which Core category applies?	Business Operations.

Policies and Procedures

- Finalize recordkeeping SOP.
- Finalize attendance and active participation SOP.
- Finalize post-test, remediation, and certificate release SOP.
- Finalize approval-claims and catalog language SOP.

Recordkeeping and Operations

Record	Minimum content	Retention
Course file	Outline, materials, schedule, source list	3 years
Instructor file	Resume, qualifications, disclosures	3 years
Roster/completion	LIC 9142A/equivalent, participation, assessment	3 years
Evaluation	Course/instructor evaluation	3 years
Certificate log	Vendor/course number, hours, dates, times, location	3 years

Risk Register

Risk	Severity	Control
Incomplete LIC 9141	High	Use pending-field matrix; collect source-backed records before signature.
Incomplete LIC 9140 attachments	High	QA every course against LIC 9140 and ACB guide.

Risk	Severity	Control
Instructor documentation not source-backed	High	Collect resumes, licenses, disclosures, and segment assignment matrix.
Reviewer access not validated	High	Validate reviewer credentials, live-stream path, post-test, and activity logs.
Premature approval claims	High	Use claim-safe catalog language and final Compliance clearance.
Course category span	Medium	Keep each course mapped to one category; split topics when needed.
Payment mismatch	Medium	Finance approves \$140 vendor fee and \$10/hour course fee worksheet.
Outdated official form	Medium	Check CDSS forms page immediately before submission.
Recordkeeping gaps	Medium	Use Appendix D logs and three-year retention controls.

QA and Internal Audit

- Official form versions checked against CDSS Certification Forms page.
- All pending fields resolved or kept pending with no invented values.
- Course packets checked against LIC 9140 and ACB course-review guide.
- Instructor documentation complete.
- Reviewer access validated.
- Website/catalog language claim-safe.
- Dee final approval recorded before submission.

Submission Package Checklist

- Compliance completes final review.
- Official forms are filled and checked.
- Course approval packets are complete.
- Instructor documentation is complete.
- Catalog and website language are claim-safe.
- Reviewer access is validated, if online or self-paced/live-stream.
- Fee worksheet is approved by Finance.
- All required signatures are collected.
- Dee approves the final submission package.

Post-Approval Operations

- Enter approved vendor number and course numbers only after CDSS issuance.
- Use LIC 9142A or equivalent roster for attendance/completion records.
- Submit quarterly schedules when required.
- Maintain course, instructor, roster, evaluation, and certificate records for required retention period.

Final Approval Gate

Execution may continue.

- Do NOT submit any application to CDSS.
- Do NOT sign any CDSS forms.
- Do NOT publish approval claims or advertise approved status.
- Do NOT issue administrator CE certificates.
- Do NOT use any CDSS vendor number or course approval number before issued.

Required Before Submission

- Compliance completes final review.
- Official forms are filled and checked.
- Course approval packets are complete.
- Instructor documentation is complete.
- Catalog and website language are claim-safe.
- Reviewer access is validated, if online or self-paced/live-stream.
- Fee worksheet is approved by Finance.

- All required signatures are collected.
- Dee approves the final submission package.

Source Research

Source	Use
CDSS Administrator Certification Bureau Forms	Official source for vendor forms and payment notices.
CDSS FAQ - Vendors	Fees, course format, outline requirements, certificates, records, cure process, and renewals.
